MEMORANDUM FOR THE RECORD

SUBJECT : Processing of U-2 Photography

REFERENCE : Memo for DD/R from DAD/OSA, Dated 16 November 1962;  
Same Subject

1. Following the approval by Dr. Scoville of the recommendation contained in reference, I was in touch with Colonel Geary to see if he could pave the way with Dr. Charyk for the latter to concur in Dr. Scoville's view that the  photography should be processed at  I specifically mentioned that I was directed by DD/R to write a memorandum to D/NRO, informing him of our wish to conduct the processing at  as opposed to Eastman-Kodak as recommended by the COMOR.

2. Colonel Geary said that he felt this did not require a memorandum from DD/R and that he would undertake to clear this recommendation with which he was in full accord with Dr. Charyk. Our conversation on this subject was on the morning of 19 November, and I have reason to believe there is no objection from D/NRO to this method of operation, since Colonel Geary would have phoned had there been one; however, I shall take a final check with him on this matter to close the loop today.

JAMES A. CUNNINGHAM, JR.  
Deputy Assistant Director  
(Special Activities)
